Thinking beyond development

Increasingly, companies and developers are evaluating and exploring options to provide facilities for parents with young children.

On similar lines, DLF has joined hands with TLC to open a Daycare Center in DLF Cybercity. DLF believes it is a win-win situation for both – parents and companies. For parents and employees, it provides a good infrastructure for their young ones and reduces anxiety of the parent resulting in higher ability to concentrate on their jobs. For companies, this means saving money in decreasing employee absenteeism and turnover.

*I wiggle, I jiggle
I giggle, I swiggle
I laugh, I cry
and if I do I know someone will wipe my eye
I run, I fall
and then get up and walk tall
I snuggle I cuddle
I jump in a puddle
and with my friends get into a huddle
I paint I stick,
I decide, I solve a puzzle
I sing, I hum
I tap the drum
I sleep I play
I eat, I drink
I am learning all the time
I have more fun than you can think*

The day care centre is in line with our vision to make DLF Cybercity the preferred destination to work. It is always stressful for a working mother to strike a balance between work and taking care of a child. We want to take the stress out of young parents working in Cybercity and want to offer them peace of mind with respect to their young ones.
