

Medanta – The Medicity, founded by eminent cardiac surgeon Dr. Naresh Trehan, and managed by him and his team of renowned doctors, is a beacon for medical excellence in India. We are built on the foundation of providing India with unmatched healthcare, medical facilities, cutting-edge technology and state-of-the-art infrastructure.

Medanta – The Medicity is home to the most prominent medical talent in India, our world-class team of doctors are unparalleled in the quality of medical care they provide. Spread over 43 acres, Medanta houses 1250 medical beds, over 350 state-of-art critical care beds, six centres of excellence and 45 operating theatres for over 20 specialities to ensure that every patient receives individual attention and dedication from our medical staff.

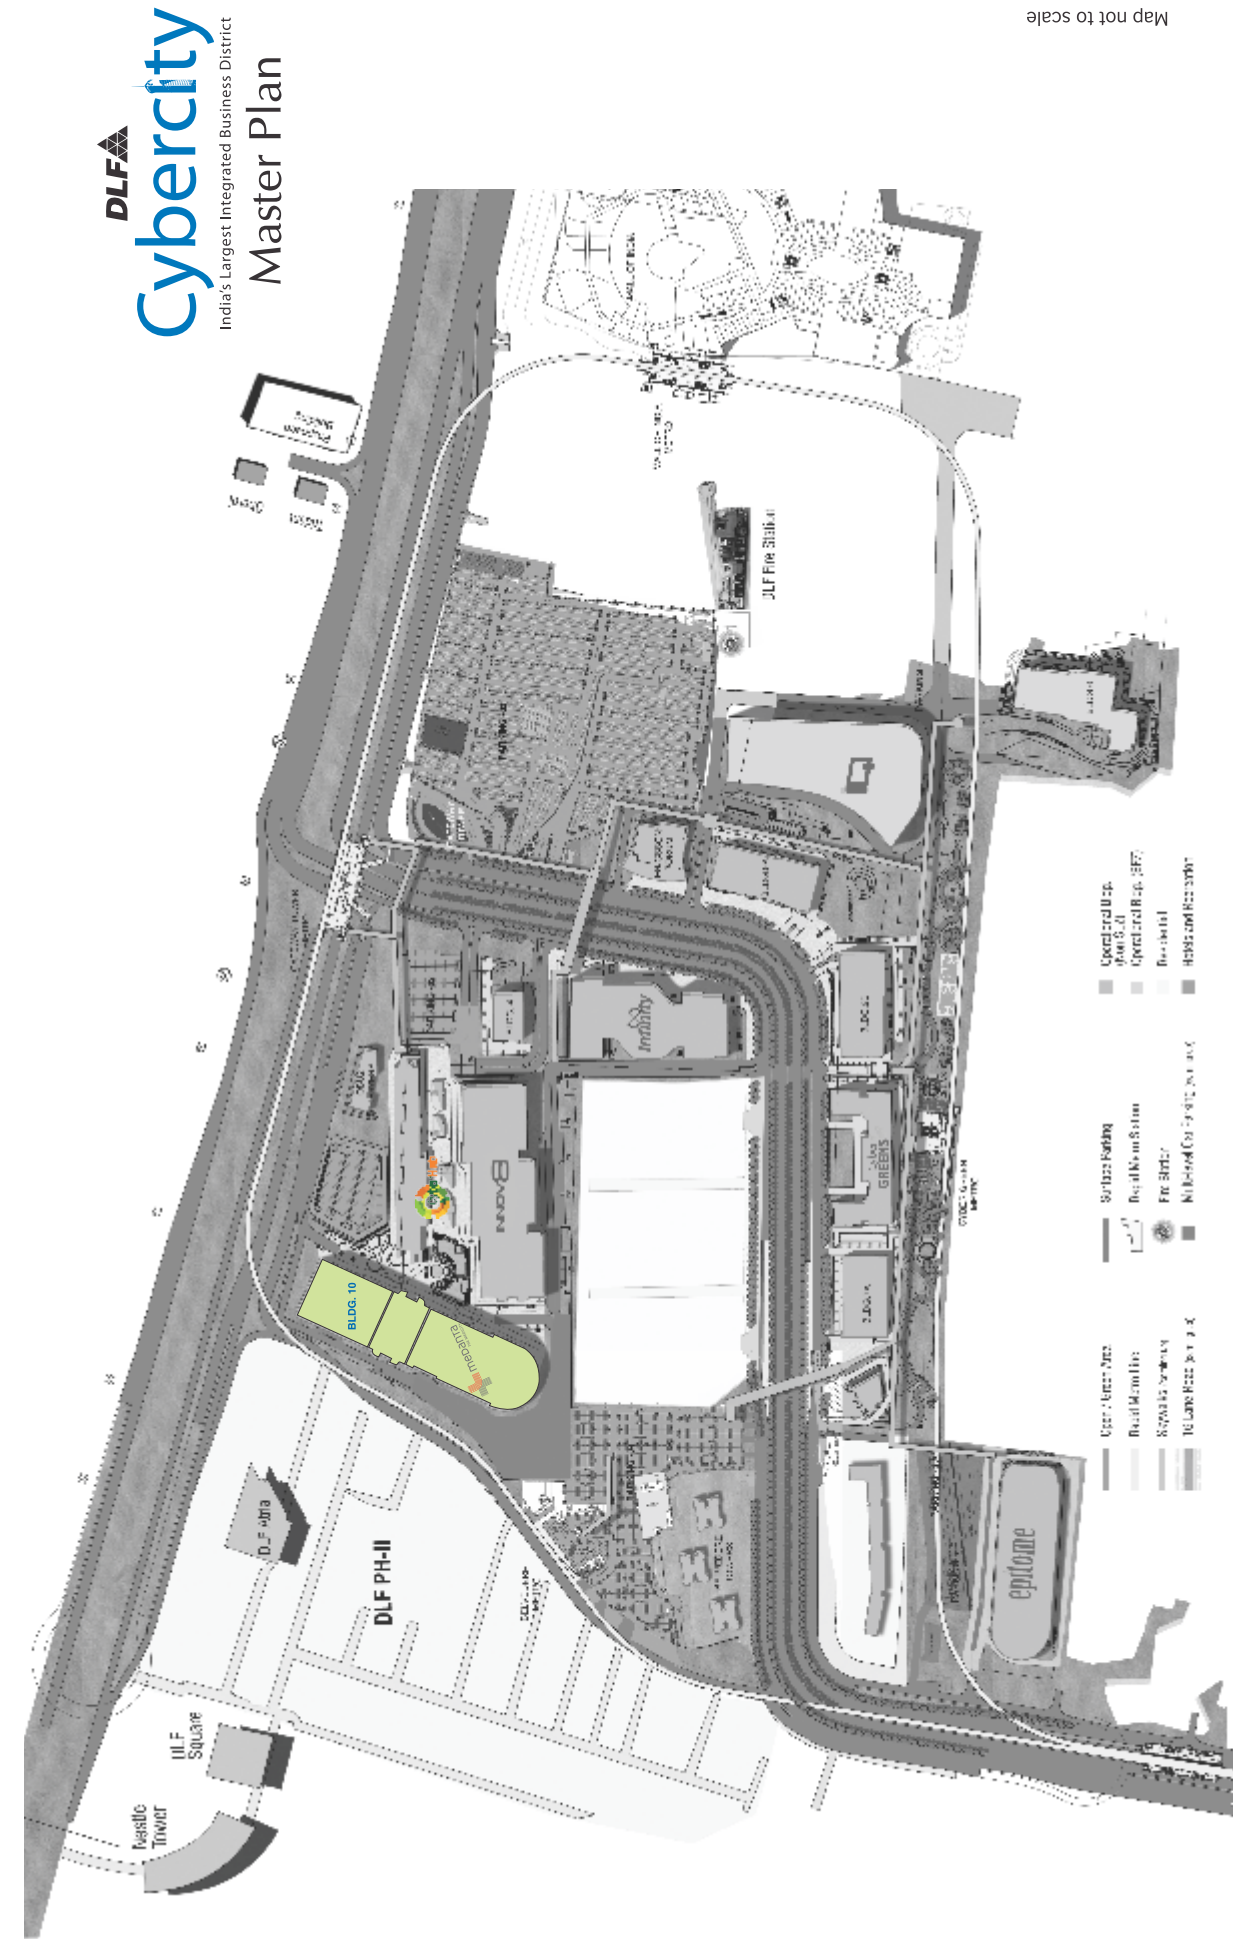

Medanta also provides superlative healthcare to patients who are at great distances, 'Flying Doctors India' is an emergency medical care air-rescue initiative at 30,000 feet above sea level. Our team of 40 doctors from different specialties, have the largest flying doctor's experience in the world and are the first in India to provide access to state-of-the-art tertiary care anywhere in the world. We also have Tele-Medicine Centres equipped with advanced technology that provide any location in India access to primary & secondary health centres.

Medanta also hosts a number of international patients through our International Patient Services. These services offer treatment packages, visa assistance and the coordinating and scheduling of appointments at the hospital.
